JOB DESCRIPTION

Title of Position: Distribution Worker

Department: Distribution

Title of Immediate Supervisor: Distribution & Meter Department Coordinator or Distribution Supervisor

Definition: Under the general direction of the Distribution & Meter Department Coordinator or Distribution Supervisor perform the duties associated with the maintenance, repair and installation of water mains, service lines, stop boxes, valves, fire hydrants and other required appurtenances. Remove, replace and repair pavement or other surfaces disturbed by excavation. A Distribution Worker should be able to determine if job site is hazardous, and be capable of performing some duties with little or no supervision, as directed.

Major Responsibilities:

1. Help senior employees in the performance of their duties and work independently as directed.
2. Using shovels, picks, pry-bars and other hand tools or pneumatic, hydraulic or gas powered equipment will excavate and fill holes, including breaking and removing various types of pavement and replacement as required to repair distribution system.
3. Help in repairing or replacing water services, water mains, valves, stop boxes, fire hydrants and other parts of the distribution system as directed.
4. Load and unload material and equipment from trucks as instructed.
5. Restore job sites after completion of job by filling holes, restoring soil to required density with use of compaction equipment and restore surface as directed.
6. Work as needed in all areas of the Distribution Department.

7. Carry a cell phone while on or off duty as directed by the Distribution & Meter Department Coordinator or Distribution Supervisor.
8. Work overtime at the end of a shift or on weekends as needed.
9. Respond to after hours emergency repair calls.
10. Report any injury or accident to a supervisor immediately.
11. Follow all safety procedures set out in the Water Works Safety Program.
12. Other duties may be as assigned as necessary.

Required Knowledge, Skills and Abilities:

1. Employee must have no condition preventing performance of heavy and demanding physical labor outdoors and/or in confined spaces under all weather conditions.
2. Must possess at time of employment, or obtain within sixty (60) days of employment and maintain possession a valid Class B Commercial Drivers License (CDL) with air brake endorsement valid in Iowa, and insurable under Company policy.
3. Must be able to operate all Distribution Department vehicles with air brakes (automatic and standard transmission) including wheel loader, tractor, backhoe, loader-breaker, pickup truck, dump truck, service truck and flatbed truck with boom. Must be able to read tape measures.
4. Must be able to perform basic mathematical calculations, such as addition, subtraction, multiplication, and division, accurately and timely.
5. Must be able to speak, understand read and write English and keep accurate legible reports of work performed and actions taken.
6. Must be able to work with a wide variety of Water Works employees, contractor's personnel, and the general public politely and courteously under circumstances that may not be the friendliest.

Required Experience and Training:

1. High School Diploma or Equivalent.
2. This is an entry-level position.

Physical Requirements:

1. Must be sighted.
2. Must be able to hear normal conversation.
3. Must be able to use and communicate using a standard touch-tone telephone, cellular phone, or two-way radio and person to person conversation.
4. Must be able to work in all types of weather conditions.
5. Must be able to walk over uneven terrain at construction site or other areas during any weather conditions.
6. Must be able to perform heavy physical labor standing upright, stooped over, squatting, or kneeling.
7. Must be able to climb out of and descend into excavation using the slope of the excavation for shallow excavations and by means of a ladder for deeper or shored excavations.

8. Must be able to use pneumatic, hydraulic and gas powered equipment that creates severe vibrations and noise during operation.
9. Must be able to wear all personal protective equipment necessary for safe working conditions.
10. Must be able to use a shovel, pick, and pry bars including pipe wrenches, valve/stop box keys, sledge hammers and other hand tools.
11. Must have manual dexterity sufficient to assemble bolts, nuts and other appurtenances used in repair/replacement of water mains or other parts of the distribution system.
12. Must be able to lift 75 lbs. from the ground to shoulder height and from shoulder height to the ground to load or unload trucks.
13. Must be able to engage in repetitive motion using hands, wrists and arms.
